

MODEL NO : 891/HVLP-2QT

Operating Instructions

MODEL NO : H891W/HVLP-D2QT

Used in very large areas. Has Broad range of pressure with medium & low density of paint.

Air consumption : MAX. 43 psi (3 bar)

Standard model : Nozzle size 1.0mm 2QT pressure cup & 5FT hose.

Nozzle sets available : 1.0-1.4-1.7-2.0-2.3mm

This gun is also designed where pressure type applications are required. Whether being used with a 2 quart cup or 2¼ gallon tank the change-over is made easy. If necessary, you need only change the needle spring and/or the air cap and nozzle and needle valve.
